New Meeting Place for Amiga-By-The-Loop

Beginning in January, the Amiga-By-The-Loop Chapter has a new home. We'll be meeting on the campus of the University of Texas in Arlington — in the University Center — in the Pedernales Room on the second floor.

The move is part of our continuing effort to save money. The old meeting room was costing far too much money for our current membership to support. Thanks go to Ned Kelly for

finding this new space for us at no cost.

For those unfamiliar with the area, UTA is located on Cooper Street, about 4.5 miles north of

Interstate 20, and about 2 miles south of Interstate 30. Once at the campus, follow the map on the front page to find the University Center — E.H. Hereford building. It's the one with the circle around it. We have been asked to park in the lots just north of the building, which are marked "F-12" and "38" on the map. The campus police will be notified that we'll be there so we won't be ticketed. (Ordinarily a parking sticker is required.) Once inside the building, look for the Pedernales Room on the second floor.

Hope to see you there. Word is, we may have an Amiga One there, although it will probably still be running Linux.

...Bill Raecke

AmigaMall Partnership

(Snoqualmie, WA) December 2, 2002 — Amiga has announced the creation of a partnership with Extreme Computing to provide customers with a source to purchase Amiga licensed clothing and merchandise. The "AmigaMall" e-commerce site will provide both Amiga branded clothing and merchandise as well as Extreme computer systems. The AmigaMall can be accessed from the Amiga Website or via mall.amiga.com.

"We are very happy to be able to enter into this partnership with Extreme Computing to provide these types of products" said Vince Pfeifer, Vice

President of Operations. "Having Extreme handle all of our physical product fulfillment allows us to focus our resources on delivering software solutions for our customers. The timing of this agreement allows customers to purchase products in time for the holiday season."

"We are very pleased to be able to work with Amiga Inc. on this project" said Todd Gustafson, CEO of Extreme Computing. "We feel it is important to keep the Amiga spirit alive, and the AmigaMall is just one way to keep things going in the right direction. We plan to continue offering unique and fun Amiga products, and we will update our website with new products throughout the new year".
